

## Product Description

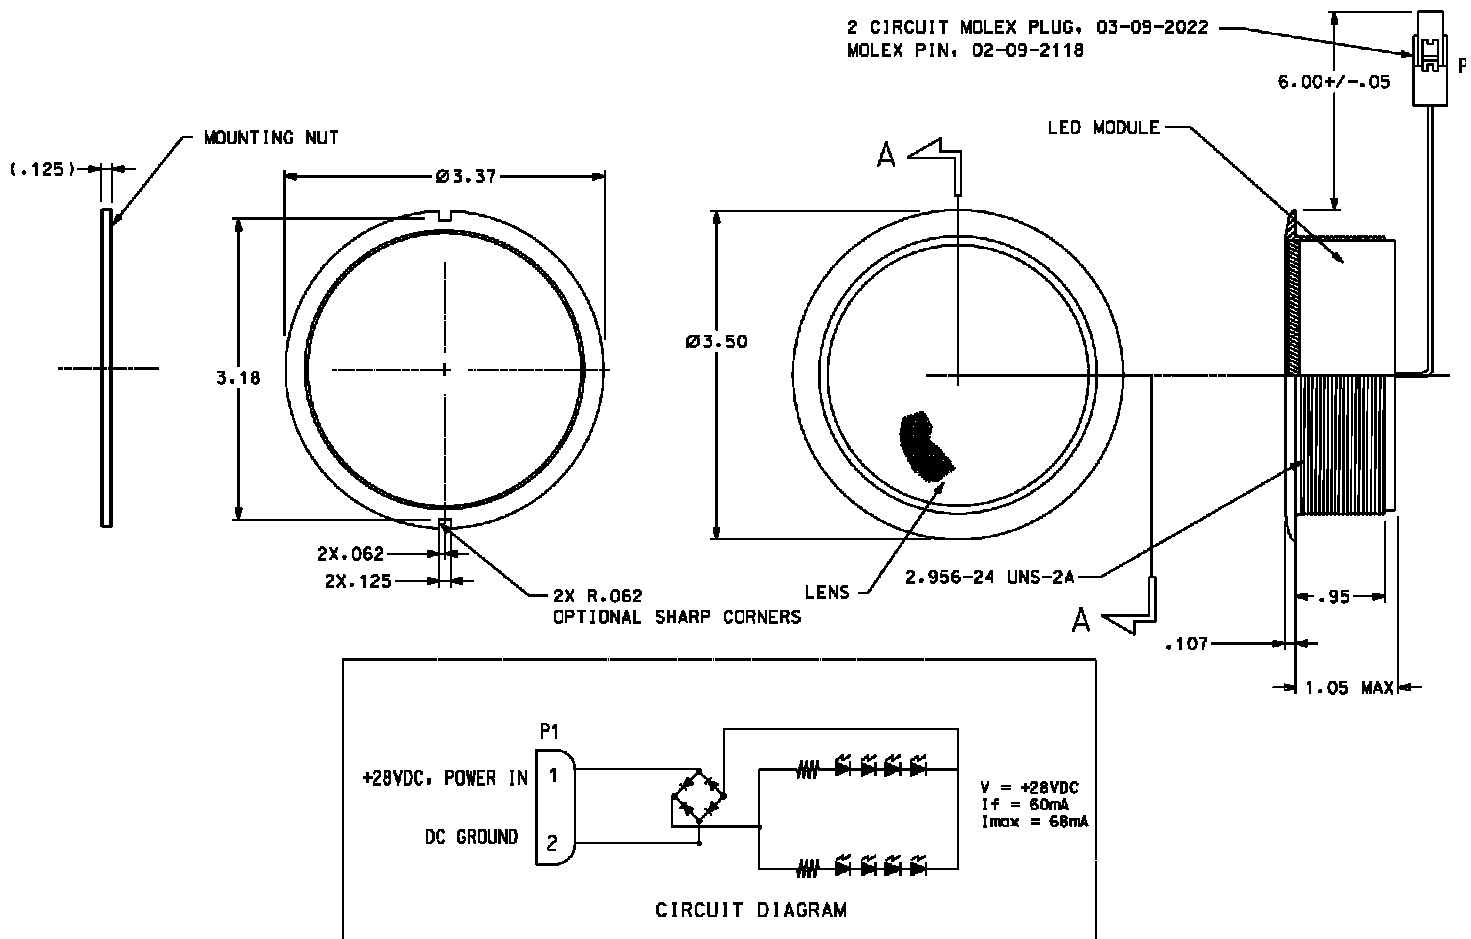

Long life white LEDs

Operates on 28V AC or DC

Light weight aluminum construction

Mounting nut type installation

Available in anodized or plated finishes

Area light DL2573 is a general area light designed for installation in main cabin ceilings, closets, galleys, and crew areas. The area light utilizes long life and high quality Nichia® LEDs to provide superior operating performance for aircraft applications. A prism design incorporated into the lens enhances the light disbursement from the high output LEDs. A mounting nut is used for ease of installation and the area lights threaded housing will accommodate panel thickness ranging from .06-.75 inches.
