

## Product Description

No Smoking & Fasten Seat Belt Symbols

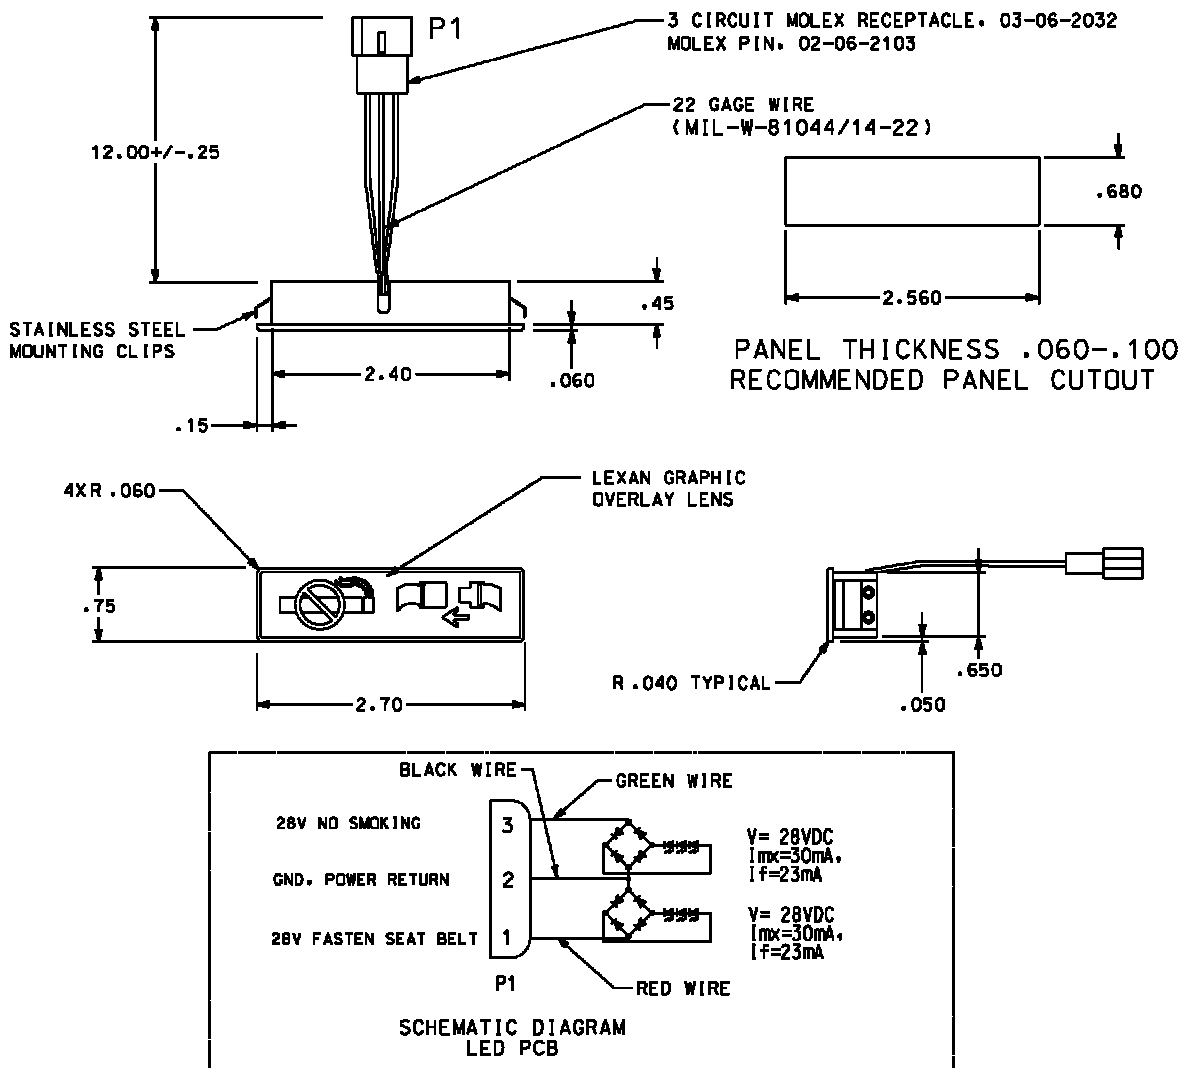

No Smoking & Return To Seat Symbols

Long life white LEDs

Operates on 28V AC or DC

Light weight plastic construction

Spring clips for simple snap-in installation

The IS5130 LED type information is a narrow low profile design with injection molded plastic bezel and utilizes long life and high quality Nichia® LEDs to provide superior operating performance for aircraft applications. The information sign is available in two standard colors of black and cream. Additional custom colors can be provided. Stainless steel mounting clips are utilized for installation of the area light in a wide range of panel thicknesses.
